

TRBOserver: Milestone Integration

Enhancing notifications capabilities

TRBOserver is an on-premise multi-site server that enables Milestone XProtect systems with practically limitless bi-directional alarm and notifications capabilities. It notifies different types of users and devices, including analog and digital 2-way radios, telephones, PA systems, and IoT devices.

Features

Examples of what the TRBOserver-Milestone integration can accomplish:

- Simultaneously dispatch voice announcements to any analog or DMR digital 2-way radios, telephones, PAs, and text messages to groups or individual DMR radios
- Acknowledge or trigger alarms from Motorola MOTOTRBO radios
- Trigger alarms via telephone with a simple code
- Alarms activate relays via radio telemetry
- Direct alarms to the most appropriate destination with time- and content-specific rules

Benefits

TRBOserver:

- Integrates the capabilities of multiple systems into one single solution to enable simpler, robust and reliable deployments.
- Delivers additional radio-centric capabilities such as emergency / mandown / loneworker alerts, telephone interconnect, indoor/ outdoor location, job ticketing, employee accountability and safety, as well as alarms from fire panels, HVAC, BDAs, and malfunctioning equipment
- Future-proofs the ever-changing requirements of any organization
- Direct network integration with Motorola MOTOTRBO infrastructure and any type of DMR 2-way radios

Value Propositions

TRBOserver automates the distribution of notifications and brings them in the most efficient way to the appropriate parties at the time.

The end goal is to more efficiently act on events, improving situational awareness, employee safety, and loss prevention, while reaching any part of an organization.

REQUIREMENTS

On-premise solution:

TABLETmedia TRBOserver version 4.0.59

Milestone XProtect 2023 R2

Regional availability: Americas (NA and LATAM), Europe, Asia and Africa

UNIQUE EXPERIENCE

Understanding the critical requirements of your business, we have grown by listening and appreciating your trust. We can only make great products if they need no support or, as needed, we are there to promptly help you. Since 2001 we have provided device manufacturers, dealers, and end-customers best-in-class prompt and hands-on support. All of our products are developed by us, right here in the USA. They are tightly integrated and modular to scale seamlessly and meet your requirements now and in the future.
